

Library Recommendation

Dear Librarian,

The Radiology Legacy Collection, a searchable electronic archive of *Radiology* scientific journal issues from 1923 to 1998, is scheduled to be online by early spring 2010. As the only complete electronic archive of historic *Radiology* issues, the *Radiology Legacy Collection* will present unparalleled opportunities for research and allow complete and accurate citation of historical articles. It is a tool that will empower users to find information quickly and easily from one comprehensive source.

I strongly recommend purchasing the *Radiology Legacy Collection* for the following reasons:

- REFERENCE:** This journal is directly related to my field and is an important source of reference for my research. I need to refer to articles from this journal frequently in the course of my work.
- STUDENT REFERRAL:** It is critical that students have access to this information to best facilitate their course work and academic pursuits. I will be referring my students to this journal regularly.
- BENEFIT FOR LIBRARY:** This journal will be a valuable addition to the library's collection of scientific resources. Its acquisition will assist the library in fulfilling departmental and faculty needs.
- OWN AFFILIATION:** I am a member of RSNA and strongly support its journals as essential scientific resources. I regularly recommend articles to colleagues
