Library Recommendation

Dear Librarian,

The *Radiology* Legacy Collection, a searchable electronic archive of *Radiology* journal issues from 1923 to 1998, is currently online and available for purchase. As the only complete electronic archive of historic *Radiology* issues, the *Radiology* Legacy Collection presents unparalleled opportunities for research and allows complete and accurate citation of historical articles. It is a tool that empowers users to find information quickly and easily from one comprehensive source.

I strongly recommend purchasing the *Radiology* Legacy Collection for the following reasons:

- REFERENCE: This journal is directly related to my field and is an important source of reference for my research. I need to refer to articles from this journal frequently in the course of my work.
- STUDENT REFERRAL: It is critical that students have access to this information to best facilitate their course work and academic pursuits. I will be referring my students to this journal regularly.
- BENEFIT FOR LIBRARY: This journal will be a valuable addition to the library's collection of scientific resources. Its acquisition will assist the library in fulfilling departmental and faculty needs.
- OWN AFFILIATION: I am a member of RSNA and strongly support its journals as essential scientific resources. I regularly recommend articles to colleagues.
